For those occasions when you need even more than 4.1m³ cargo capacity, Nissan can support your needs with a specific Loading and Towing Genuine Accessory range. INTERIOR UTILITY

NV200 is a great load carrier with a surprisingly big internal space. It's easy to protect that space, using a range of durable plastic panels specially designed to protect the load space walls, floor, wheel arches and doors.

Though tough, they are light weight, so unlike traditional wooden panels they have virtually no impact on NV200's carrying capacity, with minimal intrusion on the load space.

| 1 | 5 | 1/PLASTIC FLOOR PROTECTION FOR VAN⁽⁷⁴⁾ Rugged, easy to clean and with an anti-slide surface that helps keep your cargo in place. |
| 2 | 4 | 6 |
| 3 | 7 | 2/UTILITY HOOK⁽⁷⁶⁾ AND SIDE RAIL⁽⁷⁵⁾ Useful accessories that fix securely to the side wall of NV200, for attaching ropes to secure cargo. |

3/MATS^(49/50/51/52/53) Keep the cockpit carpet clean with these rubber or textile floor mats. The floor mats feature a neatly stitched NV200 logo, are tailored to fit precisely and include fixings so they stay in place (can be easily removed for cleaning).

4/CARGO PLASTIC PROTECTION FOR FRENCH DOOR WITHOUT WINDOW⁽⁶⁶⁾, REAR PANEL⁽⁷²⁾ AND WHEEL ARCH⁽⁷³⁾ These durable plastic panels are part of a range developed to protect virtually all the interior load space. Lighter than wood panels and slim enough not to intrude on the load space, they're tough, easy to clean and provide smart and very effective protection.

5/MULTI-PARTITION NET⁽⁷⁷⁾ This ingenious storage net can be used in four different positions, to keep loads apart and to carry light loads up to 10kg. It's attached by a system bar and utility hook, both available separately. Here it's being used to create extra load space, as a roof net.

6/THE MULTI-PARTITION NET⁽⁷⁷⁾ in this picture, attached at floor level to help keep loads in place (up to 10kg).

7/THE MULTI-PARTITION NET⁽⁷⁷⁾ here, attached at waist height, to hold light loads up to 5kg and also help to conceal any goods on the floor.

The Rear Parking System⁽²⁵⁾ sensors activate automatically when you engage reverse gear. An audible signal increases in frequency as you get closer to an obstacle, until a continuous tone warns you to stop*. A Front Parking System⁽²³⁾ is also available. Door protection cladding is available to protect NV200's hatchback or French rear doors.

* Compatible with removable and flanged towbars only if ball removed. Not compatible with fixed towbar.

Nissan Genuine accessories make the NV200 even easier to use. Parking systems take the effort out of getting into small spaces. A range of interior accessories add to your comfort and help keep everything conveniently in place, so there are no loose items to distract you when driving.
