

NISSAN
INFORMATION PACK
ALL-NEW NISSAN MICRA

Introduction to: Nissan Information Pack

Welcome to the All-New Nissan MICRA Information Pack. Discover our new 100% electric city car. A stylish, compact electric car designed for seamless urban driving.

This pack provides a comprehensive overview of the All-New Nissan MICRA, offering detailed information on its key features, benefits, and unique selling points.

Delve into the abundance of information provided here, and don't hesitate to contact us for additional details as required.

ALL-NEW NISSAN MICRA

01 Grade walk

ENGAGE

40kWh only

MAIN FEATURES

- 18" ACTIVE structured wheels
- 7" TFT combimeter & 10.1" infotainment screen
- NissanConnect² Services app compatible
- 11kW OBC with Type 2 cable
- Automatic Air Conditioning with scheduling function
- Heat Pump
- 4 speakers
- Wireless Apple CarPlay[®] and Android Auto[®]
- Multi-link rear suspensions
- Privacy glass
- Rear parking sensors

ADVANCE

40kWh or 52kWh

MAIN FEATURES (on top of Engage)

- 18" ICONIC alloy wheels
- 10.1" TFT with Nissan ConnectNavi and Google³ built-in (inc. Intelligent Route Planner), Google Assistant³, Google PlayStore³
- ACC with Stop & Go function
- Wireless phone charger
- Multisense: Drive modes x Ambient Lighting
- Front sensors & rear-view camera
- 4 speakers and 2 tweeters
- e-Pedal⁴ with paddle shifts
- Electrically foldable heated door mirrors
- LED headlights

EVOLVE

52kWh only

MAIN FEATURES (on top of Advance)

- 18" SPORT alloy wheels
- Two-tone paint
- Harman / Kardon[®] Sound system⁵
- ProPILOT⁴ Assist with Navi-link
- Heated seats & steering wheel

ALL-NEW NISSAN MICRA

03 Design & Dimensions

SUV – inspired design with elevated ground clearance to enhance visibility and versatility, easier to navigate uneven roads and potholes.

Iconic light signatures – full LED circle shaped front and rear light signatures to showcase its tech-forward identity.

18" wheels on all grades + available with 14 exterior combinations.

BOOT CAPACITY:

- Up to 326 litres of usable space (i.e., 3 cabin suitcases)
- Wide boot opening
- Additional 27 litres of storage under mat for charging cables and accessory V2L adaptor⁶⁷

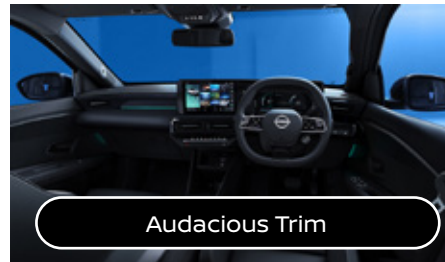

DIMENSIONS:

- Height: **1,499mm**
- Length: **3,974mm**
- Width (including mirrors): **2,020mm**
- Wheelbase: **2,541mm**

ALL-NEW NISSAN MICRA

04 Inside the cabin/interior

Trim - Available in three distinctive ambiances – enabling the driver to choose the mood that suits their personality and lifestyle

- 48 -colour ambient lighting (automatically adapts colour to time of the day).
Leaning into the personalisation side
- Seating – quick and easy 60/40 fold down system for quick adjustment between passengers and cargo
- 18 litres of storage space cleverly distributed throughout the cabin on selected grades.
You will find storage in armrests, seat pockets, door bins and glove box
- Sound – get a premium audio experience with the 410W Harman Kardon sound system (standard on Evolve). Surround yourself with 8 speakers and a powerful subwoofer, delivering rich, immersive audio. With 5 listening modes, it transforms every drive into a multi-sensory experience

Infotainment Screen/ Displays inside:

NissanConnect² (Engage only)

- 7" Combimeter + 10.1" Display

NissanConnect² with Google⁵ Built-in (Advance & Evolve only)

- 10.1" combimeter + 10.1" Display + Google Assistant, Maps and Play store
- **Google Assistant³** – A voice-activated, onboard assistant for hands-free control
- **Google Maps³** – A seamlessly integrated navigation app, always up to date
- **Google Play³** – Access to a range of driving-compatible apps directly from the dashboard

ALL-NEW NISSAN MICRA

05 Performance + Charging

2 Battery Options:

- 40kWh¹ battery delivering up to **196 miles** WLTP range — ideal for daily commuting
- 52kWh¹ battery offering up to **257 miles** WLTP range — perfect for longer drives and greater flexibility

Charging:

AC recharging (ideal for overnight or workplace charging):

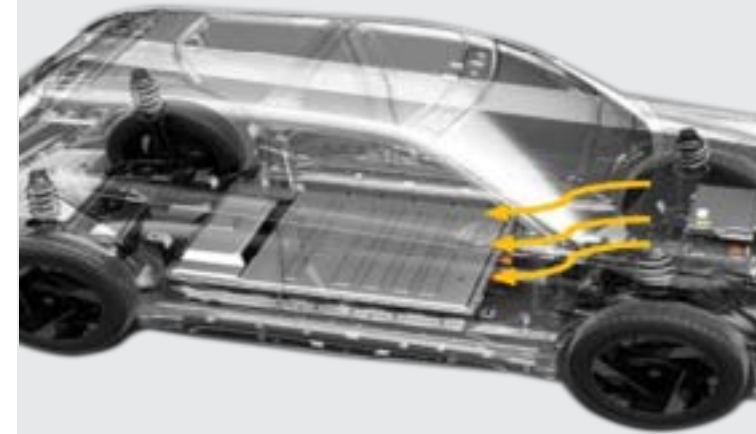

- 10-100% - 3 hours and 40 minutes (40kWh)⁸
- 10-100% - 4 hours and 45 minutes (52kWh)⁸

DC recharging (Ideal for quick top-ups on the go):

- 15-80% - in as a little 30 minutes⁹

Regenerative braking system:

- Helps optimise consumption and is automatically activated

Optimised Battery Thermal Management:

Heat Recovery System:

- Instead of letting heat from the engine go to waste, the system re-uses residual heat to warm the battery, ensuring optimal operating temperature

Battery Preconditioning via In-Car Route Planner by Google Maps³ (from Advance):

- When the driver sets a route using the built-in Google Maps³, power is automatically allocated to precondition the battery before arrival at a charging station.

Optimise your driving range with smart route recommendations that get you to your destination.

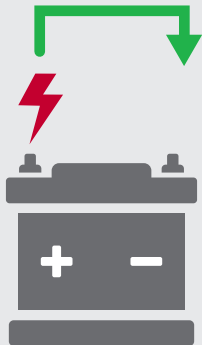

ALL-NEW NISSAN MICRA

06 Regenerative braking

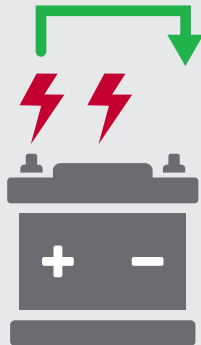

Four regenerative braking modes for personalised control: from gentle deceleration to **e-Pedal one-pedal⁴ driving**, MICRA offers **four distinct levels of regenerative braking**, giving drivers the ability to fine-tune the driving feel for **comfort, energy recovery, and reduced wear**. The modes can be seen on the driver's screen and **selected with the paddle shifts**.

FOUR MODES OF REGENERATIVE BRAKING

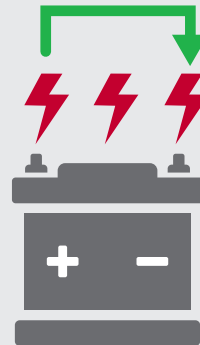

B1 mode -
very low resistance

B2 mode -
Combustion-engine like

B3 mode -
High braking

CLASSIC REGENERATIVE MODES

EVOLVE

E-PEDAL -
Strongest deceleration to full stop

ONE PEDAL REGENERATIVE MODE

B1 Mode

Very low resistance:

Designed for smoother, gliding deceleration. Ideal for relaxed highway driving or when minimal regenerative braking is desired.

B2 Mode

Combustion engine-like

feel: Mimics the natural deceleration of a traditional petrol or diesel vehicle. Perfect for those transitioning from ICE (internal combustion engine) vehicles.

B3 Mode

High braking: Delivers stronger regenerative braking, suitable for urban traffic or downhill driving, where frequent deceleration is required.

One-Pedal regenerative mode

e-Pedal⁴: Maximum deceleration until full stop: Enables a true one-pedal driving experience, where lifting off the accelerator brings the vehicle smoothly to a stop. Ideal for stop-and-go traffic and urban driving, this mode reduces reliance on the brake pedal and maximises energy recovery.

ALL-NEW NISSAN MICRA

07 Advanced Safety Technology^{4,5}

DRIVING

Distance Warning

Above 20mph and until 90mph, informs the driver about the follow-up time to the vehicle in front, alerting him if too close with colour pictograms on the dashboard.

Cruise Control & Speed Limiter

CC: driver define a speed at which the vehicle will drive. Reducing physical fatigue.
SL: driver define a speed limitation to prevent over speeding and avoid focus on the matter.

ACC Stop & Go

The vehicle regulates its speed to maintain a set distance from the vehicle in front, not exceeding the maximum speed set by driver. It is also able to slow down to a full stop and then restart. Both reduce driver mental load, especially in traffic.

Contextual ACC

Thanks to always up-to-date map, the vehicle automatically adapts its speed to road context, very useful on interurban roads.

Lane Centering Assist

Contributes to reducing driver's mental load, mainly by centering the vehicle in its lane but also following curves within system limits.

PARKING

Ultrasonic Parking Alerts

Facilitates parking manoeuvre by giving an audible and visual indication of the proximity of the vehicle to any type of surrounding obstacle.

Rear View Camera

Visualisation of the rear environment of the car on central display, facilitating the parking manoeuvre and helping to avoid collisions.

Hands Free Parking

Enjoy a semi-autonomous parking assist, with hands free intervention. Customer will enjoy it in almost all parking scenes: perpendicular, parallel, park out of parallel slots.

ALL-NEW NISSAN MICRA

Advanced Safety Technology^{4,5} continued...

SAFETY FEATURES

Autonomous Emergency Braking

On the speed interval: 5 to 50mph the system uses the front radar to detect obstacles ahead. Alerts the driver on imminent frontal collision risks with a stationary vehicle, at low speed, triggering AEB to avoid or mitigate collision.

Emergency Lane Keeping Assist

When a dangerous situation is detected, system keeps the vehicle in the lane. The system uses the camera and the radar to detect the presence of overtaking vehicles as well as vehicles coming from the opposite direction.

Lane Departure Warning

Be warned by the system if the car is getting out of lane limits due to inattention on driving. The front camera identifies road limit markings and warns the driver through haptic vibration of the steering wheel.

Lane Keeping Assist

Be assisted by the system if the car is getting out of lane limits due to inattention on driving, by actioning the steering wheel.

ADVANCED SAFETY FEATURES

Blind Spot Warning / Intervention

Warns the driver against potential collision with another vehicle in the blind spot during manoeuvres. If an object is detected on that zone, a LED light is showed on the exterior mirror on the side of detection. The vehicle corrects its trajectory to avoid collision.

Lane Change Warning

Warns the driver against potential collision with an overtaking vehicle in the adjacent lane of the vehicle during lane change manoeuvres.

Intelligent Speed Assist

Traffic Sign Recognition (TSR): Inform the driver on the TFT screen about the legal speed limit. Over Speed Prevention (OSP): adjust your speed to the detected speed limit.

Rear Advanced. Emergency Braking

If the vehicle is driving backward and there is an obstacle the vehicle will brake to avoid the collision or mitigate collision..

Rear Cross Traffic Alert

Rear Cross Traffic Alert prevents accidents with crossing moving objects when exiting parking in rear manoeuvres, using the same radar technology. Applicable for perpendicular or angle parking situations.

Occupant Safe Exit

Occupant Safe Exit prevents accidents between opened doors of a standstill car with approaching vehicles. The warning happens if the driver wishes to exit the car (when they open the door).

Driver Monitoring System

DMS system is intended to address potential driver fatigue (DDAW), distraction (ADDW) or Unresponsive Driver. It is only a warning to inform the driver of a potential lack of driver attention or drowsiness.

[1] Up to 196 miles range refers to the MICRA 40kWh and up to 257 miles range refers to the MICRA 52kWh (range figures pending final homologation) based on a full charge. WLTP figures shown are for comparability purposes. Only compare electric range figures with other cars tested to the same technical procedures. Actual real world driving results may vary depending on factors including the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load.

[2] To use NissanConnect Services you need a smartphone with compatible iOS or Android operating system and a SIM card with data option from a mobile service provider. The services in the introductory offer are free for a specific time period depending on availability, model and grade. Please check the NissanConnect Services app for more details. Image for illustration purposes only.

[3] Google, Google Play and Google Maps are trademarks of Google LLC. Compatible phone and compatible active data plan required.

[4] ProPILOT Assist is available on a limited range of vehicles. ProPILOT Assist is an Advanced Driver Assist technology but cannot prevent collisions. ProPILOT Assist is intended for "Eyes on/ Hands On" for highways only (road separated by Barriers).

[5] Features available depending on version, as standard or only as option (at an extra charge).

[6] Figure is based on standard testing conditions and optimal usage. Actual performance may vary depending on the specific appliances, environmental factors, and other variables. This claim should be used as a general guideline rather than a definitive guarantee. Accessory V2L adaptor is required at customer cost. (V2L connector is free of charge until April 2026, then will become optional at separate cost).

[7] Features available depending on version, as standard or only as option (at an extra charge).

[8] Figures quoted are for MICRA 40kWh and MICRA 52kWh batteries with 11kW AC home charging from 10% to 100%. Charging time may vary depending on charging conditions, including charger type and condition, on-site power usage, battery temperature as well as ambient temperature at point of use, battery age and state of charge, and if battery safeguarding technology is activated. The home charger depicted is for illustration purposes only.

[9] Figures quoted are for The All-New Nissan MICRA 52kWh with a 100kW and for 40kWh battery with an 80kW DC. Charging time may vary depending on charging conditions, including charger type and condition, on-site power usage, battery temperature as well as ambient temperature at point of use, battery age and state of charge and if battery safeguarding technology is activated.

All-New MICRA

STANDARD EQUIPMENT

The sixth-generation MICRA blends bold design, advanced connectivity, and zero-emission mobility. With over 40 years of heritage, the All-New MICRA remains true to its roots—stylish, practical, and accessible—while embracing the future of electric driving.

THE ALL-NEW MICRA COMES WITH:

EXTERIOR

- Customisable welcome sequence
- Rear spoiler
- Privacy glass
- Gloss black mirror caps, bumper, and side skirts

COMFORT

- Automatic air conditioning with scheduling function
- Heat pump
- On-board AC charger CCS type 2, 11kW

SAFETY

- Autonomous emergency braking
- Emergency lane keeping assist
- Lane departure (warning & prevention)
- Intelligent Speed Assist (ISA)
- Driver monitoring system
- 6 Airbags
- Anti-theft alarm

TECHNOLOGY

- Apple CarPlay® (wireless)
- Android Auto® (wireless)
- 1x Front 12V socket
- 2x USB-C ports
- Bluetooth® with audio streaming
- Telematics: Remote Services, notifications & Connectivity Services
- Full i-Key & Start push button with anti-theft
- Virtual Personal Assistant & Firmware Over The Air capability

ENGAGE

IN ADDITION TO STANDARD EQUIPMENT

EXTERIOR

- 18" 'ACTIVE' structured wheels
- Halogen lighting

INTERIOR

- 'Modern' Black Cloth upholstery
- Polyurethane Leather Steering Wheel

SAFETY

- Rear parking sensors

TECHNOLOGY

- 7" TFT Combimeter
- 10.1" Infotainment System with wireless Apple CarPlay® and Android Auto®
- Set of 4 Arkamys speakers
- NissanConnect Services
 - Remote control services
 - Vehicle location
 - Driving and navigation history
 - Vehicle health reports and maintenance/malfunction alerts
 - Nissan help and assistance
 - Wi-Fi hotspot (paid service)

COMFORT

- Standard seat with 4-way manual adjust for driver
- Manual dimming interior mirror
- Electronic parking brake
- Driver and passenger sunvisor

CHARGING

- 40kWh battery capacity
- On-board AC charger CCS type 2, 11kW
- Max DC Charging Power: up to 80kW
- Heat pump
- Vehicle-to-Load capability (adapter supplied)

OPTIONS*

- Metallic paint

ADVANCE

IN ADDITION TO ENGAGE

EXTERIOR

- 18" 'ICONIC' alloy wheels
- Shark fin antenna
- Electrically adjustable and heated exterior mirrors

INTERIOR

- Synthetic leather steering wheel
- Central console integrated in armrest
- Auto dimming interior mirror
- LED interior lighting (48+ ambient colours)

SAFETY

- Adaptive cruise control with stop & go (ACC)
- Blind Spot Information System (BLIS)
- Autonomous emergency braking with rear cross traffic alert
- Rear auto emergency braking
- Rear cross traffic alert
- Occupant Seatbelt Evaluation (OSE-warning only)
- Rear view camera

TECHNOLOGY

- Dual 10.1" TFT infotainment and driver display
- Set of 6 Arkamys speakers
- NissanConnect Navigation with Google Automotive Services built-in
 - Google Maps
 - In-Car Route Planner
 - Google Assistant
 - Google Play
- Wireless phone charger

COMFORT

- 4 distinct driving modes
- Driver seat with 6-way manual adjustments
- Regenerative braking + E-Pedal with intensity adjustment paddles
- Electronic parking brake with auto hold
- Driver and passenger sunvisor

CHARGING

- Available in 40kWh and 52kWh
- Max DC charging power: up to 80kW (40kWh battery) and 100kW (52kWh battery)

OPTIONS*

- Metallic and Two-Tone paint (Black or Grey roof)
- Cold Pack
 - Heated Steering Wheel
 - Heated Seats for Driver and Passenger
 - Power 2-way lumbar for driver, 6-way manual adjust for front passenger
- 18" 'SPORT' alloy wheels

*Options available at additional cost

Google, Android, Android Auto, Google Maps and other marks are trademarks of Google LLC

EVOLVE

IN ADDITION TO ADVANCE

EXTERIOR

- Two-Tone Metallic Paint (Black or Grey roof)
- 18" 'SPORT' alloy wheels

INTERIOR

- 'Audacious' Blue synthetic leather upholstery with fabric inserts
- Frameless auto dimming interior mirror
- Driver seat rear pocket

SAFETY

- ProPILOT Assist with NaviLink

TECHNOLOGY

- Premium Harman Kardon® sound system with 8 speakers and 1 subwoofer

COMFORT

- Power 2-way lumbar for driver, 6-way manual adjust for front passenger
- Heated steering wheel
- Heated front seats (driver and passenger)

CHARGING

- 52kWh battery capacity
- Max DC charging power: up to 100kW

OPTIONS*

- Chill Interior (Cream Grey)
- Hands-free Parking

Every effort has been made to ensure that the content of this publication is correct at the time of going to press (August 2025). This brochure has been produced featuring prototype vehicles exhibited at motor shows. In accordance with the company's policy of continuously improving its products, Nissan International reserves the right to change at any time the specification and the vehicles described and shown in this publication. Nissan dealers will be informed of any such modifications as quickly as possible. Please check with your local Nissan dealer to receive the most up-to-date information. Because of the limitations of the printing processes used, the colours shown in this brochure may differ slightly from the actual colours of the paint and interior trim materials used. All rights reserved. Reproduction in whole or part of this brochure without the written permission of Nissan International is forbidden.
