Nissan Juke with hybrid technology. Bold, electrified and thrilling

Introducing the electrifying Nissan Juke, the Hybrid Coupe Crossover that puts the fun back in urban driving. At first sight, its bold design is meant to turn heads. Once inside, you'll be captivated by the premium details and advanced technologies. Press the accelerator pedal and feel the smoothness of the electric motor as well as the powerful petrol engine for a responsive and thrilling ride.

Images and descriptions shown are for guidance purpose. In some instances photos are of non-local specification vehicles and do not represent a specific model, grade or offer. The features shown may not be available or may not be available as standard or only as option.

Pure attitude from any angle

Four doors, one irresistible attitude. From the V-motion grille up front to the 3D Boomerang lights in the rear, Juke Hybrid crossover is designed to be bold. Its sharp lines and distinctive floating roof, inspired by GT-R and Z, are iconic of the Juke design.

- New Grille
- Rear view
- Signature Headlamp
- 19" Alloy Wheel

Features available depending on version, as standard or only as option (at an extra charge).

Thoughtful design

This sporty crossover was designed around the driver, with advanced technology at your fingertips, seats that are shaped to your body, and premium finishes that every passenger will find exhilarating.

*Comparison made between Nissan Juke SV Premium 1.0 114hp DCT and Nissan Juke SV Premium Hybrid 143hp
** Vehicle has been homologated in accordance with EU regulations using the more realistic WLTP test procedure. NEDC values are therefore not available for this vehicle.

Hybrid Powertrain

Yes, a hybrid can be thrilling. This hybrid powertrain automatically selects the most efficient power source between the electric motor, the petrol engine or a combination of the two, for optimal performance and efficiency. Juke Hybrid runs predominantly in electric mode for city driving, with immediate reactivity and smoothness to throttle inputs, its cabin space is quiet even on busy streets.

e-Pedal Step

e-Pedal Step is unique to Nissan and gives you the option to accelerate and decelerate effectively with just the accelerator pedal at speeds above 10km/h. Leaving the brake pedal for harder braking and coming to a complete stop.

Smart multi modal hybrid gearbox

Nissan Juke comes with an advanced low friction multi-mode gearbox that provides optimal use of power, whether electric, petrol engine, or both.

Petrol Engine

In addition to the new hybrid powertrain, Nissan Juke comes with a 1.0-litre lightweight internal combustion engine. The electronically charged turbocharger and reduced friction design gives smooth and responsive power, while the ECO mode delivers greater efficiency. Available with manual or automatic transmission.

Stay connected

With NissanConnect Services, your world is at your fingertips. Download the NissanConnect app for your Home to Car virtual personal assistant, controllable by using your voice and compatible with both Alexa and Google devices. You can unlock the doors, flash the lights and more. Advanced smartphone connectivity keeps you seamlessly connected to the world around you.

Scan the code to download now the NissanConnect Services app and connect it to your New Nissan.

Listen up with Bose® Personal® Plus*

Listen to your favorite tracks in this fully customisable, 360° listening experience through Bose® Ultra Nearfield speakers built into the front headrests. Strategically placed speakers help enhance the sound for the ultimate listening experience.

Confidence at every turn

The Nissan Juke is equipped with advanced ProPILOT⁽¹⁾⁽²⁾ safety technologies, keeping you and your passengers safe for maximum peace of mind.

INTELLIGENT CRUISE CONTROL keeps your distance by measuring the space from the vehicle ahead, controlling acceleration and deceleration to automatically maintain a suitable following distance within your set speed.

INTELLIGENT LANE INTERVENTION warns you when the vehicle has left the centre of the travelling lane and helps assist you to return to the center of the lane by applying the brakes to the left or right wheels individually (for a short period of time).

INTELLIGENT BLIND SPOT INTERVENTION alerts you if there's a vehicle in the blind spot area on either side of the car, and brings you back into line.

INTELLIGENT EMERGENCY BRAKING with pedestrian and cyclist recognition. Monitors the surrounding area in front of the car for vehicles, pedestrians and cyclists, helping to avoid or reduce damage caused by collisions.

⁽¹⁾ ProPILOT is available on a limited range of vehicles. ProPILOT is an Advanced Driver Assist technology but cannot prevent collisions. ProPILOT is intended for "Eyes on/ Hands On" for motorways only (road separated by Barriers). Driver should monitor all traffic sign and obey traffic laws. It is the driver's responsibility to stay alert, drive safely and remain in control of the vehicle at any time.

⁽²⁾ Feature available depending on version, as standard or only as option (at an extra charge).

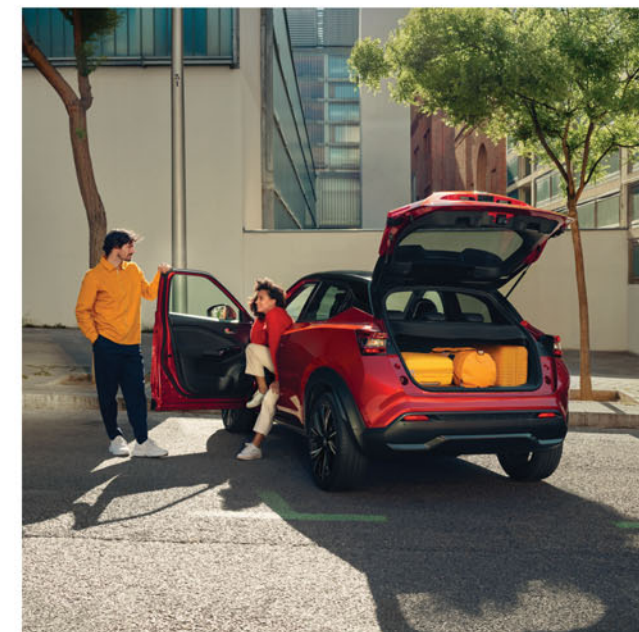

You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances. Speed and other limitations apply.

A view from all sides

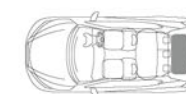

Fear no parking spot. Intelligent Around View Monitor⁽²⁾ makes parking easier with 4 cameras providing a 360° bird's-eye view and helping you to navigate those tight parking spaces.

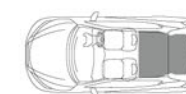

Fit for your life

Whether loaded with people or gear, your Juke is roomy and versatile, ready for all the fun that awaits you. An easy-fold split rear seat increases the Nissan Juke boot size so that you can carry larger cargo like bikes or luggage.

Service Contracts

Give your Nissan Juke the care it deserves with a Nissan Service Contract and save money in the long run. Nissan Maintenance Contract covers all the scheduled operations recommended by Nissan and specified in the owner's manual & warranty booklet. Maintenance Contract allows you to know from the start how much your maintenance will cost and protects you against price inflation. In addition to the scheduled operations, you can benefit from the replacement of wear and tear parts such as wiper blades or brake pads by subscribing to a Full Maintenance Contract. Select the duration that covers your needs and benefit from the use of Nissan Genuine Parts fitted by our trained technicians. A well maintained vehicle has a greater resale value. If you sell your Nissan before your contract expires, the Service Contract will be transferred to the new owner. So do not wait any longer and subscribe to a Nissan Service Contract for extra peace of mind!

Extended Warranty

Nissan Extended Warranty gives you the opportunity to extend your warranty for a longer period or mileage. Select the contract that best suits your driving usage. In case of a repair, only Nissan genuine parts will be used and fitted by Nissan trained technicians.
