Nissan LEAF

# More range, more power, more choice

Nissan LEAF is brimming with new possibilities to offer you multiple driving experiences with just one car. Whether you're a city dweller, commuter or just a dedicated 100% electric driver in search of a more thrilling ride, prepare for a more confident, connected, exhilarating journey in the simply amazing Nissan LEAF.

Images and descriptions shown are for guidance purpose. In some instances photos are of non-local specification vehicles and do not represent a specific model, grade or offer. The features shown may not be available or may not be available as standard or only as option.

## Sail through the city

Cruise the urban landscape with a range of up to 270km\* in LEAF 40 kWh and up to 385km\* in LEAF 62 kWh. Choose B-mode for instant sensation, use the e-pedal for thrilling control and switch to eco-mode for longer-lasting fun. Activate ProPILOT\*\* and Nissan Intelligent Mobility technologies to make light work of heavy traffic and make the road yours.

## Enjoy commuting like never before

Switch to D-Mode and activate ProPILOT\*\* to take the stress out of a long commute – and top up on the go thanks to a large Fast-Charging network in Ireland.

## Empower your 100% electric drive

For even more driving excitement, opt for the Nissan Leaf 62 kWh for instant torque, more power and more range, it's one of the best EVs running around town today.

\*Range figures are obtained from laboratory testing in accordance with EU legislation and are intended for comparison between the different types of vehicles. The information does not refer to a particular individual vehicle and does not constitute part of the offer. The figures may not reflect real driving results. Optional equipment, maintenance, driving behaviour and non-technical factors like weather conditions may affect the official results. Figures were determined under the new Worldwide harmonized Light vehicles Test Procedure (WLTP) test cycle.

\*\*Features available depending on version, as standard or only as option (at an extra charge).

### FEEL MORE IN CONTROL

with the **Nissan e-Pedal**. Yes, you only need one pedal to accelerate, decelerate and brake in the Nissan LEAF – it's amazing.

### REVEL IN THE SENSATION

of instant power at take-off and the pure pleasure of intelligent driving technologies for a smooth, exhilarating ride.

### BOOST YOUR CONFIDENCE

with Nissan ProPILOT\*. Simply activate it and select your speed and distance for an easier, more relaxed and safer drive all round.

### SEE AND SENSE MORE

with Around View Monitor\*\* and smart technologies\*\* like Rear Cross Traffic Alert and Blind Spot Intervention.

### STAY CONNECTED

Enjoy seamless connectivity between your phone and your car 24/7 with a new 8" display screen and Apple CarPlay/Android Auto.

## Thrill your senses

It's powerful, it's intense, it's a new driving sensation. Get ready for an experience that pushes all the right buttons when you're behind the wheel. Is power your principle driver? Experience a massive boost in capacity with the 62 kWh LEAF. Need to feel connected 24/7? The NissanConnect system is made for you. Always ready to go a step further? There's no stopping the Nissan LEAF.

\*ProPILOT is available on a limited range of vehicles. ProPILOT is an Advanced Driver Assist technology but cannot prevent collisions. ProPILOT is intended for "Eyes on/ Hands On" for motor only (road separated by Barriers). It is the driver's responsibility to stay alert, drive safely, apply speed limits and safe speed based on road conditions and remain in control of the vehicle at any time.

\*\*Features available depending on version, as standard or only as option (at an extra charge).

# Ride the city like never before

It's clever, it's got serious stamina and it's great fun: navigating the urban jungle is a joy with the Nissan LEAF. Imagine driving with just one pedal: it makes driving around all those roundabouts and up and down busy streets fuss-free. Stuck in town in a traffic jam? No hassle.

NISSAN  
INTELLIGENT  
MOBILITY

**e-Pedal.** Speed up, slow down and brake using nothing more than the accelerator pedal. It's so simple.

[Exterior design](#) | [Interior design](#) | [Technology & Performance](#) | [Style & Accessories](#)

[Print](#) | [Close](#)

[Page 1](#) | [Page 2](#) | [Page 3](#) | [Page 4](#) | [Page 5](#) | [Page 6](#) | [Page 7](#) | [Page 8](#) | [Page 9](#) | [Page 10](#) | [Page 11](#) | [Page 12](#) | [Page 13](#) | [Page 14](#)

**Parallel Parking.** Found a winning spot? Pull up ahead of it, hold the button and watch the Nissan LEAF just glide in. Amazing.

**Bay Parking.** Pull up to an open space, hold the button and watch the Nissan LEAF perfectly park itself in between the lines.

## It's never been easier to park

One of the biggest bugbears of city driving is city parking. All that advancing, twisting and reversing takes more time and effort than you have to give. With ProPILOT Park\*, it's hassle-free. Need to squeeze into a space in a crowded little carpark? Want to grab that spot on the side street? Just pull up, hold the button, let go of the wheel and watch your LEAF park perfectly. No hands, no feet, just an easier, more convenient way to park.

\*ProPILOT Park is available as an option on the SVE model LEAF.

You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances. Speed and other limitations apply.

## Get a little warning before you make a move

**FEEL MORE AROUND YOU.** Even if you can't see that car sneaking up on you or that child on the corner that's about to cross road, you can count on Nissan Intelligent Mobility\* features to take notice and give you a heads-up. Whether you're backing out of a parking spot or changing lanes on the main road, they make you more aware of your surroundings and give you a whole new level of confidence.

\*You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances. Speed and other limitations apply.

**INTELLIGENT AROUND VIEW MONITOR\*\*** will alert you when it detects moving objects near your vehicle. This system increases your view of the surroundings.

**REAR CROSS TRAFFIC ALERT\*\*** This feature helps you back out of a space more safely. It watches around the rear of your LEAF, and can warn you about cars it detects creeping up on you from either side.

\*\*Features available depending on version, as standard or only as option (at an extra charge).

\*Refer to the specifications page for a full list of intelligent driving technologies available in each LEAF model

Make the most  
of the journey

CAN EVEN

# The right technology at the right moment

Very smart, the Nissan LEAF is packed with versatile technology that steps in when you need it most. For example, when you're cruising down the motorway and the traffic suddenly slows down: **Intelligent Emergency Braking** with Pedestrian Detection keeps an eye out and is ready to apply the brakes if necessary. It's good to know you're not alone. With an entire suite of Nissan Intelligent Mobility\* features to back you up and help keep you out of trouble, the Nissan LEAF turns your journey into a confident, assured, more exhilarating ride every day.

You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances. Speed and other limitations apply.

Imagine driving with a suite of Nissan Intelligent Mobility features\* that includes:

**ProPILOT\*\*:**  
keeps an eye on the flow of traffic to maintain your pre-set speed and distance and keep you centred. It will even warn you if you start drifting out of lane and can bring you to a complete stop in traffic jams

**ProPILOT Park:**  
no hands, no feet, just an easier way to park using only one finger. This Nissan Intelligent Mobility feature is so advanced, it turns parking into a spectator sport.

**INTELLIGENT CRUISE CONTROL:**  
watches the flow of traffic to take the tedium out of motorway driving.

**INTELLIGENT LANE INTERVENTION:**  
helps keep you where you want to be. It taps the brakes to help gently guide you back if it detects that you're unintentionally straying out of your lane for too long.

**INTELLIGENT AUTO HEADLIGHTS with full LED:**  
headlamps light your way by automatically turning on when it gets dark and dipping temporarily when an oncoming vehicle is detected.

**BLIND SPOT INTERVENTION\*:**  
Alerts you if there's a vehicle in the blind spot area on either side of the car, and brings you back into line.

\*Features available depending on version, as standard or only as option (at an extra charge).

\*\*ProPILOT is available on a limited range of vehicles. ProPILOT is an Advanced Driver Assist technology but cannot prevent collisions. ProPILOT is intended for "Eyes on/ Hands On" for motorways only (road separated by Barriers). It is the driver's responsibility to stay alert, drive safely, apply speed limits and safe speed based on road conditions and remain in control of the vehicle at any time.

Souped up and supercharged for  
100% electric future

WIND-DIFFUSING  
SIDE MIRRORS

LOWER  
DIFFUSER

CONTINUOUS FLAT  
UNDERBODY

Slice through the air with greater efficiency. Thanks to the increased capacity of the new 62kWh battery and its advanced aerodynamic design, the Nissan LEAF 62 kWh delivers on every level: enjoy instant torque and an unbelievably quiet ride with minimum impact on the environment and your wallet. This is the future: power, pleasure and positivity.

[Page 1](#) | [Page 2](#) | [Page 3](#) | [Page 4](#) | [Page 5](#) | [Page 6](#) | [Page 7](#) | [Page 8](#) | [Page 9](#) | [Page 10](#) | [Page 11](#) | [Page 12](#) | [Page 13](#) | [Page 14](#)

Charging your LEAF couldn't be easier: just plug it into your home charger for an overnight top up, or use the largest fast charging network in Ireland for a charge on the go.

**HOME CHARGING**  
7KW WALLBOX

**NISSAN LEAF 40 KWH: ALERT TO FULL CHARGE IN UP TO 7H30 MIN**  
**NISSAN LEAF 62 KWH: ALERT TO FULL CHARGE IN UP TO 11H30 MIN**

# Choose your charging and keep moving

**PUBLIC FAST CHARGING**  
**CHADEMO 50KW RAPID CHARGER\***

**NISSAN LEAF 40 KWH : 20% TO 80% IN AROUND 60 MIN\***  
**NISSAN LEAF 62 KWH : 20% TO 80% IN AROUND 90 MIN\***

\*Figures quoted are for a 40kWh Nissan LEAF and 62kWh Nissan LEAF batteries. Time dependent on charging conditions, including charger type and condition, battery temperature as well as ambient temperature at point of use. Indicated fast charging time requires use of a CHADEMO fast charger. The Nissan LEAF is designed to support the majority of journeys in daily life and is equipped with charging safeguards to protect the battery during repeated fast charging sessions in a short period of time. The time taken for successive fast charging can take longer if the battery temperature activates the battery safeguarding technology.

# Plug into savings embrace the freedom

**FIND OUT WHY MORE IS LESS** Driving electric has more than a few unexpected benefits. Without a petrol or diesel engine, of course there are no more fill-ups, but you also do away with a lot more. Overall, there are fewer moving parts, which translates into less maintenance. Now you just have to decide what to do with all your free time.

## GOODBYE COMBUSTION ENGINE

With a 100% electric motor, say goodbye to all the check-ups and maintenance, and hello to more time on the road. You will also save time and money by charging your battery instead of filling up the tank.

## GOODBYE FUEL STATION

Forget about having to stop at the fuel station on the way to work. Now you can wake up fully charged and ready to take on the day.

## GOODBYE OIL CHANGES AND MORE

No more fuel means no more oil or oil changes. Say goodbye to transmissions, spark plugs, radiators, belts, and more, reducing ownership costs by up to 40%. Free time goes up.

## HELLO INNOVATIVE BATTERY

LEAF's battery pack has been developed in-house, been rigorously tested, and has an extraordinary record of reliability, meaning you can feel confident you are driving some of the best battery technology around.

# Seamless connectivity to your world

The new, 8" touchscreen in Nissan LEAF is your portal to NissanConnect through intuitive navigation, advanced technology and more. Our smartphone app offers a growing range of services including sending journey plans to your new Nissan LEAF.

## CHARGING

Get your battery status wherever you are with the NissanConnect Services app. Start charging right from your phone and take advantage of cheaper night-time electricity.

## NAVIGATION AND DRIVING

Turn-by-turn navigation including send to car gets you where you need to go. Check the distance you've driven and the number of trips you made directly from your smartphone.

## CONNECTIVITY

Connect your Android or iOS device for seamless connectivity including voice control.\*\* Access your favourite music, messaging and other apps to stay informed and entertained as you drive.

## CONVENIENCE AND COMFORT

Access remote services from the NissanConnect Services app. And if you ever need help, Nissan Assistance is just a click away.

Scan the code to download now the NissanConnect Services app and connect it to your New Nissan.

NissanConnect Services

The feature responsiveness and use can be impacted when car is receiving a bad signal. For optimal use, please make sure your car is under good network coverage.

\*\*Connecting a mobile phone to use NissanConnect should only be done when the car is parked safely. Use of the system should always be in accordance with the rules of The Highway Code. Drivers should only use the system when it is safe to do so. Users should be aware of the potential for hands-free technology to distract attention from the road, which could impact on having full control of the vehicle.

**YOUR MUSIC. YOUR WAY**  
Access your music using Bluetooth, USB or connect with Apple CarPlay® or Android Auto.

#### BATTERY MANAGER

Make sure your vehicle is charged before starting your journey. You can always start charging your Nissan LEAF from your smartphone when it is convenient for you.

Free service <sup>(2)</sup>

#### MAPS & LIVE TRAFFIC

Get real-time traffic information, provided by TomTom, that helps you plan smarter ways round congestion or accidents so you can plan every journey better.

Free service for 3 years <sup>(3)</sup>

#### IN-CAR WIFI

Use your car as a WiFi hotspot to connect to the internet on board. Let's go!

Paid service <sup>(4)</sup>

#### REMOTE CONTROL SERVICES

Make your car stand out in any situation - flash the lights and sound the horn. You can also pre-heat or cool your Nissan LEAF before entering, for maximum comfort. Your battery will stay at its charge when it is plugged to a charger.

Free Services for 3 years <sup>(3)</sup>

# NissanConnect

Featuring a stunning floating 8" display screen, NissanConnect for Nissan LEAF is your central control system. Connect your phone to your car, optimize your routes, better manage your battery, get help and support throughout your journey and even improve the way you drive. Simply download the NissanConnect Services App to get in sync.

NissanConnect also brings the familiar experience of your smartphone via Apple CarPlay® and Android Auto<sup>(1)</sup>.

<sup>(1)</sup> Apple CarPlay® and Android Auto are available free of charge, depending on model and/or grade.

<sup>(2)</sup> Free services (Nissan on Google Assistant, Driving History & Analysis, Nissan Help & Assistance, Breakdown Assistance) are available free of charge for a period of 7 years, depending on model and/or grade.

<sup>(3)</sup> Maps & Live Traffic, Remote Control Services, Smart Alerts are available free of charge for a period of 3 years and then available for a fee €0.99/m (Smart Alerts), €1.99/m (Remote Control Services), €2.99/m (Maps & Live Traffic) depending on model and/or grade.

<sup>(4)</sup> In-Car WiFi is always a paid service available on subscription.

The use of NissanConnect on-board internet is made possible via an integrated wireless internet connection. Data packets are obtained via selected external mobile communication providers in accordance with their terms and conditions (depending on the availability in your country).

To use the NissanConnect services you need a NissanConnect Services user account and have to register and log in to NissanConnect Services with your username and password. To use the free NissanConnect Services App, you need a smartphone with a compatible iOS or Android operating system and a SIM card with data option with an existing or separate mobile phone contract between you and your mobile service provider. All services are subject to mobile network coverage. The use of NissanConnect on-board internet is made possible via an integrated wireless internet connection. Data packets are obtained via selected external mobile communication providers in accordance with their terms and conditions (depending on the availability in your country).

# Experience

comfort at the sound of silence

What would it be like to drive a fully silent car? Try stepping inside the luxuriously quiet cabin and you'll find a new level of silence - until you turn up the Bose Premium Audio System, that is. Add comfort features such as heated seats and every drive has a chance to be amazing.

\*Heated Seats and BOSE Audio system are standard in the SVE.

**BOSE**

**BOSE PREMIUM AUDIO SYSTEM\***

Even the audio system is energy-conscious. With seven small, lightweight, and strategically placed speakers, the Bose engineers created an audio system that saves power, without sacrificing sound quality. All so you can rock out more efficiently.

\*Features available depending on version, as standard or as an option (at an extra charge).

# Load up whatever the day demands

LEAF is ready for your next outing with an impressive amount of cargo space, a low rear cargo floor and 60/40 split rear seats that fold down easily. It all adds up to a vehicle that can handle just about anything you ask of it with a capacity of 435 litres.

# Electrify the world

At Nissan, we believe in a sustainable tomorrow, and we're convinced that it will only happen if we act now. That's why we're leading the work on electric mobility solutions to shape the smart cities and create a better future today.

**NISSAN ELECTRIC VEHICLES.** Join the electric revolution. Start driving the car of the future, today. Nissan's pioneering range of 100% electric cars and vans offer top class performance and cutting-edge technology, allowing you to enjoy your drive while producing zero emissions.

**THE NISSAN LEAF 100% ELECTRIC.** The Nissan LEAF 40 kWh can travel up to 270km\* (or up to 385km\* in LEAF 62 kWh)\* on a full charge and can be packed with Intelligent Mobility features including ProPILOT, ProPILOT Park and e-Pedal technology.

**EXPANDING CHARGING INFRASTRUCTURE.** Nissan works with the EV fast charging standard CHAdeMO and has already built one of the most comprehensive fast charging network in Ireland & Europe. Work is now in progress to create charging or "green" corridors for long-distance driving along popular routes.

\*Range figures are obtained from laboratory testing in accordance with EU legislation and are intended for comparison between the different types of vehicles. The information does not refer to a particular individual vehicle and does not constitute part of the offer. The figures may not reflect real driving results. Optional equipment, maintenance, driving behaviour and non-technical factors like weather conditions may affect the official results. Figures were determined under the new Worldwide harmonized Light vehicles Test Procedure (WLTP) test cycle.

Choose a **LEAF** to suit your drive.  
Tailored to you.

LEAF

At Nissan, we do everything with the customer in mind. Every action and decision we make, is made with the utmost care, precision and quality because ultimately, it's for you. From conception to car construction, from testing to transparency, from customer service to commitment. Quality is in every fine detail.

We build in quality from the outset, meticulously conceiving each car to make them more comfortable and more durable through innovative design, intelligent technology and thoughtful details inspired by you.

We work with our intelligent driving systems to constantly look out for you and help you avoid any mishaps for a bolder, more confident driving experience day after day. Our Around View Monitor uses 4 cameras to give you a virtual birds eye view of your car in its surroundings.

We push our cars to the limit to guarantee their daily performance and reliability. We travel millions of kilometres in pre-production tests, open and close doors and bonnets thousands of times a day and use real volcanic dust from Japan to test window resistance.

## NISSAN SERVICE PLAN

Give your Nissan the care it deserves with a Nissan Service Contract and save money in the long run. Nissan Maintenance Contract covers all the scheduled operations recommended by Nissan and specified in the Nissan Official Service Manual. Subscribing to a Maintenance Contract allows you to know from the start how much your maintenance will cost and protects you against price inflation. In addition to the scheduled operations, you can benefit from the replacement of wear and tear parts such as wiper blades, brake pads or suspensions by subscribing to a Full Maintenance Contract. Select the duration that covers your needs and benefit from the use of Nissan Genuine Parts fitted by our trained technicians, at a discounted price. A well maintained vehicle has a greater resale value. If you sell your Nissan before your coverage expires, the Service Contract will be transferred to the new owner. So do not wait any longer and subscribe to a Nissan Service Contract for extra peace of mind!

## EXTENDED WARRANTY

Nissan Extended Warranty gives you the opportunity to extend the 3 Years/160 000 km warranty for a longer period or mileage. Select the contract that best suits your driving usage. In case of a repair, only Nissan genuine parts will be used and fitted by Nissan trained technicians.

### NISSAN LEAF OFFERS YOU:

AT NISSAN,  
YOU BRING OUT THE BEST IN US.

You spark our imagination. You provoke our ingenuity. You inspire us to change the rules and innovate. And at Nissan, innovation is not just about additions and extensions; it's about crossing the line to reinvent the status quo. It's about developing unexpected solutions to satisfy your wildest and most pragmatic desires. At Nissan, we design cars, accessories and services that break the mould - making the practical exciting and the exciting practical, to offer you a more exhilarating driving experience everyday.

Nissan Intelligent Mobility moves you one step ahead. In cars that feel like an extension of you, helping you see more and sense more, reacting with you, and sometimes even for you. Nissan Intelligent Mobility is about a better future – moving us to a world that's safer, more sustainable, and exciting.
