A unique electrified experience, now unplugged. Nissan QASHQAI with e-POWER technology

In 2007, Qashqai invented the crossover. People around the world fell in love with its blend of hatchback compactness and SUV practicality. Now, meet the all-new Nissan Qashqai. Smarter, safer, bolder and now with 2 exciting powertrains.

e-POWER TECHNOLOGY

Available for the first time with Nissan e-POWER technology, Qashqai gives you the experience of a unique, electrified and unplugged drive. It offers a quieter, more responsive and more efficient ride in the city than traditional hybrids.

MILD HYBRID TECHNOLOGY

With this advanced petrol engine, Qashqai allows for reduced CO₂ emissions without compromising your drive. Available in 2 Wheel Drive and 4 Wheel Drive Modes, this powertrain is assisted by a Lithium-ion battery charged on the go with energy recovered during braking.

Images and descriptions shown are for guidance purpose. In some instances photos are of non-local specification vehicles and do not represent a specific model, grade or offer. The features shown may not be available or may not be available as standard or only as option.

A new form of expression

Qashqai brings a new vision to crossover design with muscular proportions, a vibrant palette, V-Motion grille, brilliant LED lighting, imposing 20-inch alloy wheels and two-tone colours.

190hp
Instant Power
& Acceleration

Enjoy an exciting and unplugged electrified driving experience with QASHQAI e-POWER

You don't need to plug in to keep rolling. Nissan's unique e-POWER technology delivers responsive, quiet performance from an electric, battery-powered motor that is recharged by a fuel-efficient petrol engine. The wheels are driven by an electric motor only, but there's no need to recharge. You get all the sensation of an electric drive with the convenience you would expect from a petrol-powered engine, with better fuel economy and lower emissions*.

SIMPLIFIED ELECTRIC DRIVE WITH e-PEDAL STEP
Experience a more intuitive way to drive. e-Pedal Step is unique to Nissan and gives you the option to accelerate and decelerate effectively with just the accelerator pedal at speeds above 10km/h. Leaving the brake pedal for harder braking and coming to a complete stop.

*Comparison is between Nissan Qashqai e-Power and Nissan Qashqai Mild Hybrid 158hp XTronic.
**Vehicle has been homologated in accordance with EU regulations using the more realistic WLTP test procedure.

Refined design and seductive functionality

Everything about the interior of Nissan Qashqai feels advanced and premium. From its steering wheel, to its centre console, everything has been ergonomically designed for total driving comfort. Enhanced screen visibility and seamless tech integration helps you stay alert and focused on any drive.

Appreciate the clarity of the 10.8" Windscreen Head-up display*, 12.3" Fully digital meter* and 12.3" HD display* with advanced NissanConnect Services. The three large screens work together in perfect sync for a safer, clearer and more optimised driving experience.

Fast (15W) wireless charger*

e-POWER shifter*

*Designed to the Qi charging standard & optimised for Qi certified devices.***

**Features available depending on version, as standard or only as option (at an extra charge).*

***For non-Qi certified devices, wireless charging performance can be limited.*

Your personal space has never felt more personal

Relax in ergonomically designed seats and feel the comfort on even the longest journeys with optimised lumbar support. Been a long day? Activate Qashqai's massage seats*, for both driver and passenger, and feel the stress disappear. With the addition of quality finishes throughout and enhanced safety, thanks to a new central airbag, there's even more refinement and peace-of-mind for all the family.

CENTRAL AIRBAG

*Feature available depending on version, as standard or only as option (at an extra charge).

Room for everyone. And more

Nissan Qashqai combines a spacious interior and generous boot space with a compact, city-friendly exterior for easy manoeuvrability. Passengers sit in comfort in a bigger cabin with room among the best in its segment, 85° rear door opening allows for easy access and easier child seat fitment, plus thoughtful small touches like two USB ports* for rear passengers.

Handsfree power tailgate

504L BOOT SPACE

1593L WITH FOLDED SEATS

Unexpected cargo capacity

Up to 1593L of space means Nissan Qashqai is ready to carry everything you need. Two luggage boards (both with one easily and fully wipeable side) offer 16 boot configurations for maximum flexibility whatever your cargo. Smart features like the Nissan handsfree power tailgate* and wide opening rear doors take the hassle out of packing and unpacking, so you can make the most of your precious days out.

*Feature available depending on version, as standard or only as option (at an extra charge).

Safety at its heart

Every Nissan Qashqai is equipped with advanced safety technologies* designed to watch the road, keep everyone safe and give you maximum peace of mind.

INTELLIGENT CRUISE CONTROL keeps your distance. It measures the distance from the vehicle ahead, controlling acceleration and deceleration to automatically maintain a suitable following distance within your set speed.

EMERGENCY LANE KEEPING. A full suite of technologies to help you avoid unintentional lane departure. Keeps you centered in the lane either by steering wheel action or braking in an emergency situation.

INTELLIGENT FORWARD COLLISION WARNING keeps an eye up to two vehicles in front of you. When the system detects a sudden deceleration ahead, it gives you an audible and visual warning to slow down.

FORWARD EMERGENCY BRAKE monitors the surrounding area in front of the car for vehicles and pedestrians, helping avoid or reduce damage caused by collisions.

Shine a light on safety

Nissan Qashqai is the first Nissan car in Europe with Adaptive Driving Beam* Technology. It splits the high beam into 12 individual segments, automatically turning off segments which could dazzle oncoming drivers. Maximum visibility for you, maximum safety for those around you.

Nissan Qashqai, with its suite of active and passive safety technologies, has achieved a 5 star EuroNCAP safety rating.

**You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances. Speed and other limitations apply.*

Tight spot? No problem

If you hate parking, you'll love Nissan Qashqai. The new digital high resolution Around View Monitor* gives you a 360° view of your car, with selectable focus on the front, rear and kerbside view to help you park with confidence and control. Nissan Qashqai with e-POWER can also be equipped with ProPILOT Park*, offering automatic parking space detection and fully automatic control of the steering, braking and accelerator when parking. Now parking really is child's play.

- Rear camera see what's right behind you.
- Side camera flick the switch to see the kerb.
- All-around view gives a virtual 360° birds' eye view as you manoeuvre.
- Front camera gives a combined front and overhead view for perfect parking.

*Feature available depending on version, as standard or only as option (at an extra charge).

ProPILOT with NAVI-Link**

Nissan Qashqai includes the latest version of ProPILOT, ensuring comfortable, relaxed driving on major roads. New software helps smooth your drive and keep you safe in your lane, maintaining an ideal distance from the vehicle in front, whatever the gradient. The NAVI-Link feature uses the Qashqai's TOMTOM™ navigation system to anticipate speed limit changes, bends, off ramps and more, adjusting your speed smoothly and gently to keep you in control. It can even initiate an emergency stop. With the intelligent emergency brake, traffic jam pilot and various other safety features, Qashqai helps to keep your passengers safe and comfortable even in demanding driving conditions.

**ProPILOT is available on a limited range of vehicles and only on Automatic Transmissions. ProPILOT is an Advanced Driver Assist technology but cannot prevent collisions. ProPILOT is intended for "Eyes on/ Hands On" for motorways only (road separated by Barriers). Navi-Link supports traffic sign recognition which may not detect and read all traffic signs in all conditions. Driver should monitor all traffic signs and obey traffic laws. It is the driver's responsibility to stay alert, drive safely and remain in control of the vehicle at any time. For details, please check the Owner's Manual.

You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances. Speed and other limitations apply.

Seamless connectivity to your world

The new, 12.3" HD display⁽⁵⁾ in Nissan Qashqai is your portal to NissanConnect: our connected car technology featuring intuitive navigation and advanced connectivity. Qashqai lets you control a range of functions using your voice for ease and convenience. Say "Hi Nissan" then ask things like "find the nearest fuel station, set my destination, call home" and more. The NissanConnect smartphone app offers a growing range of services, including sending journey plans to your Nissan Qashqai. When inside your car, connect your phone to start using your preferred apps thanks to Apple CarPlay^{®(6)} and Android Auto^{™(6)}. And wherever you are, NissanConnect Services can keep you informed about the status of your car.

(1) Apple CarPlay[®] and Android Auto[™] are available free of charge, depending on model and/or grade. Android Auto[™] is only available through a wired connection.
(2) Free services (Nissan on Google Assistant, Driving History & Analysis, Nissan Help & Assistance, Breakdown Assistance) are available free of charge for a period of 7 years, depending on model and/or grade.
(3) Maps & Live Traffic, Remote Control Services, Smart Alerts are available free of charge for a period of 3 years and then available for a fee depending on model and/or grade. Latest pricing available via the Nissan store.
(4) In-Car WiFi is always a paid service available on subscription. Latest pricing available via the Nissan store.

To use the NissanConnect services you need a NissanConnect user account and have to register and log in to the NissanConnect Services app with your username and password. To use the free Nissan Connect Services App, you need a smartphone with a compatible iOS or Android operating system and a SIM card with data option with an existing or separate mobile phone contract between you and your mobile service provider. All services are subject to mobile network coverage. The use of NissanConnect on-board internet is made possible via an integrated wireless internet connection. Data packets are to be obtained via selected external mobile communication providers in accordance with their terms and conditions (depending on the availability in your country).

ALEXA^{®(7)} COMPATIBILITY
Use NissanConnect car capabilities to control your vehicle by voice command using In-built Alexa^{®(8)}

Free service ⁽²⁾

NISSAN CONNECT SERVICES
Use the NissanConnect Services app to access Remote Control Services, Smart Alerts and more.

Free service for 3 years ⁽³⁾

IN-CAR WIFI
Use your car as a WiFi hotspot to connect to the internet on board. Let's go!

Paid service ⁽⁴⁾

WIRELESS APPLE CARPLAY^{®(6)} AND ANDROID AUTO^{™(6)}
Connect your smartphone to access your music, text messages and other favourite apps while you are driving.

Free service ⁽¹⁾
For optimal use, we recommend to use the genuine manufacturer cable.

(5) Feature available depending on version, as standard or only as option (at an extra charge).
(6) Apple CarPlay is trademark of Apple Inc., registered in the U.S. and other countries. Android Auto and the Android Auto logo are trademarks of Google LLC.
(7) Amazon, Alexa and all related marks are trademarks of Amazon.com, inc. or its affiliates.
(8) In-built Alexa available in England, France, Germany, Spain, Italy.
The feature responsiveness and use can be impacted when car is receiving a bad signal. For optimal use, please make sure your car is under good network coverage.
Connecting a mobile phone to use NissanConnect should only be done when the car is parked safely. Use of the system should always be in accordance with the rules of The Highway Code. Drivers should only use the system when it is safe to do so. Users should be aware of the potential for hands-free technology to distract attention from the road, which could impact on having full control of the vehicle.

Make every trip brighter, smarter and easier

Nissan Accessories help you personalise and style your Qashqai, make it even more comfortable or even more capable. Customise your Nissan Qashqai with the chrome Exterior Elegance pack, protect your trunk from dirt, mud and water or add towbar to go to exciting family adventure. And if you need to carry bikes or just more stuff, our racks, boxes and other load carriers are specially designed to fit the bill smartly, safely and durably.

**Towing capacity will vary depending on vehicle specification.*

Service Contracts

Give your Nissan Qashqai the care it deserves with a Nissan Service Contract and save money in the long run. Nissan Maintenance Contract covers all the scheduled operations recommended by Nissan and specified in the owner's manual & warranty booklet. Maintenance Contract allows you to know from the start how much your maintenance will cost and protects you against price inflation. In addition to the scheduled operations, you can benefit from the replacement of wear and tear parts such as wiper blades or brake pads by subscribing to a Full Maintenance Contract. Select the duration that covers your needs and benefit from the use of Nissan Genuine Parts fitted by our trained technicians, at a discounted price. A well maintained vehicle has a greater resale value. So don't wait any longer and subscribe to a Nissan Service Contract for extra peace of mind!

Extended Warranty

Nissan Extended Warranty gives you the opportunity to extend your warranty for a longer period or mileage. Select the contract that best suits your driving usage. In case of a repair, only Nissan genuine parts will be used and fitted by Nissan trained technicians.
