

NITCO SAFETY-DRIVING TRAINING

F. D. Republic of Ethiopia (December 2015)

On the 1st & 2nd of December 2015, we NITCO held the driving training course in Addis Ababa, Ethiopia, after our last training in Guatemala, October 2015. This time, in continuous collaboration with the Fleet Forum (<http://fleetforum.org>) and in cooperation with Nyala Motors S.C. (<http://www.nyalamotors.com>), the local Nissan representative in Ethiopia, we had a couple of sessions during the 2-day course: “know-hows for safety driving” and “practical training for driving” by NITCO’s trainer. Throughout the sessions, we had seventeen participants from several organizations operating in Ethiopia and in neighboring countries such as Jordan, Kenya and U.A.E.

The first training day, consisted of a theoretical session on safety-driving and of practical one on safety steering especially, was held at the Milleneum Hall, Addis Ababa, one of the largest and famous auditorium

in Ethiopia. For importance to avoid sudden danger, our trainer lectured on best steering work, as practical training the participants experienced correct steering work using the vehicles Nissan ALMERA and NP300 FRONTIER.

The second day, we held the practical session using Nissan PATROL Station Wagon in which the participants were able to put the theoretical part of the training into practice on “offroad utility”, in the suburbs of Addis Ababa. The participants experienced the importance of correct steering even in the offroad scene and at the same time experienced most comfortable suspension strokes and stability of Nissan Patrol. On the same day

as part of the session, we also held a brainstorming group session, facilitated by the trainer. In the session, we shared the cases of traffic accidents experienced by the participants and put them into perspective in regards to what they had learnt during the course.

Following our last training in Guatemala (October 2015), we, Nissan Trading Co., Ltd. take great pride in providing suitable trainings for our customers and look forward to welcoming you to one of our trainings in the near future.
