INTELLIGENCE is beautiful, and the smart sophisticated redesign of the ultimate urban crossover proves it. New Nissan QASHQAI combines stunning looks with efficient aerodynamics to help you enjoy enlightened city driving AT ITS BEST.
MOVE INTO A NEW ERA
WITH THE ALL NEW NISSAN QASHQAI

IT SPEARHEADED A REVOLUTION and now it’s back with a more powerful, bold new design, the all-new Nissan QASHQAI is the agile urban crossover created to take on the city. Take on the city? The intensity of the all-new Nissan QASHQAI means you can take on the world in style.
A DRAMATIC REINVENTION

BOLD, ATHLETIC AND COMMANDING ALL ROUND: An explosion of innovation. It’s the intelligent new urban triathlete with looks to match. Razor sharp and more predatory than ever, with a proudly provocative, aerodynamic profile, the all-new Nissan QASHQAI makes a powerful statement wherever it goes. The original crossover is back like never before.
FIRST CLASS TRAVEL IS WHAT YOU DESERVE – and what you get every time you step inside the all-new Nissan QASHQAI. The graphite leather interior grips you firmly with its spinal support seats and cushioned kneepads, while ambient lighting enhances the feeling of luxury and comfort. Now the journey really is the destination.

Features mentioned above are available on selected models. Image of right-hand drive interior displayed. Vehicle is available in left-hand drive. Please contact your local dealer for more details.
New Nissan QASHQAI’s Advanced Drive-Assist Display puts all your info right in front of you - just toggle between the screens using the steering wheel controls. Easy.

Vehicle is available in right hand drive.
Please contact your local dealer for more details.
ACTIVE ENGINE BRAKE (CVT models only) adds subtle engine brake to decelerate the car at corners to reduce workload of adjusting speed with braking and to ease cornering.

ACTIVE RIDE CONTROL applies subtle brakes to restrain uncomfortable upper body motion and enhance ride comfort.

CHASSIS CONTROL functions are displayed on your Advanced Drive-Assist display: Active Traction Control and Active Engine Brake when cornering, and Active Ride Control when brake control is activated. It keeps you where you want to be—in command.

ALL MODE 4X4-i® maximises tyre traction off-road or on-road. Using a computer and sensors, the intelligent system measures wheel slip and instantly distributes torque, with up to 50% to the rear wheels. It will also move the torque left and right to maximise traction.

DRIVE MORE LIKE A PRO
WIN CONFIDENCE, OWN THE ROAD.

CONFIDENT COMPOSURE with the Nissan QASHQAI’s chassis control functions to back you up. Nissan’s chassis control functions deliver responsive and engaging handling, while delivering a smoother ride experience.

ACTIVE Traction Control and Active Engine Brake when cornering, and Active Ride Control when brake control is activated. It keeps you where you want to be—in command.

ACTIVE ENGINE BRAKE (CVT models only) adds subtle engine brake to decelerate the car at corners to reduce workload of adjusting speed with braking and to ease cornering.

ACTIVE RIDE CONTROL applies subtle brakes to restrain uncomfortable upper body motion and enhance ride comfort.

ALL MODE 4X4-i® maximises tyre traction off-road or on-road. Using a computer and sensors, the intelligent system measures wheel slip and instantly distributes torque, with up to 50% to the rear wheels. It will also move the torque left and right to maximise traction.
MAXIMIZE YOUR PERFORMANCE.

SELECT A POWER TRAIN TO SUIT YOU: diesel, petrol, 2WD, 4WD, manual or XTRONIC CVT. You'll benefit from the dynamic performance of Nissan’s PURE DRIVE technologies and the lowest CO₂ emissions in the crossover category, thanks to our efficient diesel powertrain range (1.6dCi 2WD & 4WD, MT), also enabled by idle start/stop function and active aerodynamics.

### New XTRONIC Transmission
The new XTRONIC CVT transmission enhances driving pleasure by providing better acceleration and responsiveness while improving fuel economy.

CARRY WHAT YOU WANT. With rear seatbacks that can fold down in a 60:40 division, the all-new Nissan QASHQAI’s flexible seat arrangements enable you to expand the cargo space according to the size of your luggage.

AT YOUR FINGER TIPS. The all-new Nissan QASHQAI’s new centre console design offers smart storage to keep all of your everyday items close at hand.

VERSATILE STORAGE
OPEN A WORLD OF POSSIBILITIES
In the commitment to "real-world safety", Nissan pursues innovation as part of its Safety Shield concept. Based on the idea that cars should help protect people, advanced, proactive safety technologies help drivers and passengers to avoid danger and injury in a wide range of circumstances.

- **BRAKE ASSIST (BA)**: Senses emergency braking and automatically helps to apply maximum braking pressure if needed.
- **ELECTRONIC BRAKE FORCE DISTRIBUTION (EBD)**: Enhances braking control, to optimise braking performance with loads of various weights.
- **ANTI-LOCK BRAKING SYSTEM (ABS)**: To help prevent wheels from locking on low friction surfaces, ABS ensures maximum brake force is applied and maintains control by preventing wheel lock-up.
- **SEAT BELT PRE-TENSIONERS**:
  - Automatic seat belt pre-tensioners on the front seats, which can instantly tighten the seat belts in certain frontal collisions, while load limiters are designed to give a little to absorb the belt force load transmitted to the front occupants.
- **HILL START ASSIST**: Prevents roll-back on an incline and provides secure and easy handling and stress-free driving.
- **VEHICLE DYNAMIC CONTROL (VDC)**: VDC automatically controls brake and engine output to enhance stability when sensors detect that the vehicle might slip sideways due to steering, braking or accelerator pedal operation.
- **TRACTION CONTROL SYSTEM (TCS)**: To help prevent wheels from locking on low friction surfaces, TCS responds by reducing throttle or applying brake pressure to help improve traction.
- **6 AIRBAGS STANDARD**: Dual front, side and curtain SRS airbags will protect the driver and all passengers.
- **VEHICLE DYNAMIC CONTROL (VDC)**: VDC automatically controls brake and engine output to enhance stability when sensors detect that the vehicle might slip sideways due to steering, braking or accelerator pedal operation.

In the commitment to "real-world safety", Nissan pursues innovation as part of its Safety Shield concept. Based on the idea that cars should help protect people, advanced, proactive safety technologies help drivers and passengers to avoid danger and injury in a wide range of circumstances.

**NISSAN's commitment to quality**

To provide all customers with a consistently high level of quality, Nissan applies the same standards worldwide, to ensure that all Nissan owners enjoy peace of mind for the lives of their vehicles. The approach is based on quality from the customer's perspective on three key elements. First, the expectation of a smooth driving experience with complete peace of mind. Second, the intangible appeal of a vehicle, its power to captivate and excite, with features that enhance the customer's sense of enjoyment. Third, the level of attentiveness and service during the sales process, and long after the sale is concluded.

Intelligent Mobility guides everything we do. We’re using new technologies to transform cars from mere driving machines into partners. Together the journey is more confident, connected, and exciting. Whether it’s cars that share the task of driving with you, or highways that change your EV as you go along. It’s all in the very near future. And it’s a future already taking shape in the Nissan you drive today.
