MARCH 2015, VOL 22

NISSAN donation of vehicles for support against Ebola in Liberia

Liberia was one of the countries worst affected in West Africa by the epidemic. The ambulances, based on the Nissan Patrol SUV, were provided to the President's office of Liberia who organized their deployment. Specially converted and equipped with stretchers and first aid kits the ambulances will be used for urgent rescue efforts. The Patrol is perfectly suited to conditions in Africa and with its rugged build will help medical personnel to reach even the most remote areas.
