NISSAN & Fleet Forum

NISSAN participated in the annual Fleet Forum conference hosted this year by GOAL International in Dublin. The meeting convenes professionals from around the globe with a shared interest in realizing the best transport possible. It is a forum to share what we know, challenge and inspire one another to go further, collaborate on identifying future solutions and tools, and continue to professionalize our work and demonstrate sector know-how and leadership. The annual conference attracts leaders in their fields from aid and development organizations, the donor community, commercial organizations, academia and the corporate sector.

NISSAN GROUP OF EUROPE

Supports

NISSAN- WFP Partnership

The new e-learning course, developed by WFP and supported by Nissan, will help train WFP fleet managers and drivers, who operate a 4,200-strong fleet of light vehicles, trucks and motorcycles around the world. The goal is to ensure the safe transportation of people and humanitarian supplies.

With 88 percent of the WFP's 14,600 staff based in the field across 80 countries, safety is a critical part of day-to-day operations to ensure the efficient delivery of food assistance to people in need. When trying reach some of the most remote communities in the world, threatened by natural disasters and conflict, road incidents are an ever-present danger.
