INTELLIGENT AROUND VIEW MONITOR®
360 WAYS TO MAKE PARKING EASIER THAN EVER

What if parallel parking was easier? A rearview mirror is great when backing up – but when it comes to parking, it's nice to see more than just what's behind you. That's why X-TRAIL offers the Intelligent Around View Monitor. Four cameras give you a virtual 360° bird-eye view of your vehicle, with selectable split-screen close-ups of the front, rear and curbside views, so you can get a better look. Since all obstacles aren't stationary (shopping carts, we're talking to you), Moving Object Detection keeps an eye out around your X-TRAIL and can warn you about moving objects detected in your vicinity.

Confidence-inspiring Dynamic Technologies
Whether it's stop-and-go traffic, your favourite on-ramp, or even just an annoying bump, X-TRAIL uses advanced technology to make every drive feel more comfortable, more enjoyable. And that's a beautiful thing.
