## PERIODIC MAINTENANCE

The following tables show the normal maintenance schedule. Depending on weather and atmospheric conditions, varying road surfaces, individual driving habits and vehicle usage, additional or more frequent maintenance may be required. **Periodic maintenance beyond the last period shown on the tables requires similar maintenance.**

## ENGINE AND EMISSION CONTROL MAINTENANCE

**Maintenance items with ★ should be performed more frequently according to "Maintenance under severe driving conditions"**

- NOTE:
- (1) Periodic maintenance is not required. However, if valve noise increases, check valve clearance.
  - (2) Replace the drive belt if found damaged.
  - (3) Use Genuine NISSAN Engine Coolant (Blue) or equivalent in its quality, in order to avoid possible aluminum corrosion within the engine cooling system caused by the use of non-genuine engine coolant. Check and correct the engine coolant mixture ratio every 30 000km (18 000 miles) or 24 months. First replacement interval is 150 000km (90 000 miles) or 96 months. After first replacement, replace every 75 000km (54 000 miles) or 48 months.
  - (4) Fuel filter is maintenance-free.

## MAINTENANCE UNDER SEVERE DRIVING CONDITIONS

The maintenance intervals shown on the preceding pages are for normal operating conditions.

If the vehicle is mainly operated under severe driving conditions as shown below, more frequent maintenance must be performed on the following items as shown in the table.

**Periodic maintenance beyond the last period shown on the tables requires similar maintenance.**

### Severe driving conditions

- A - Driving under dusty conditions
- B - Driving repeatedly short distances
- C - Towing a trailer or caravan
- D - Extensive idling
- E - Driving in extremely adverse weather conditions or in areas where ambient temperatures are either extremely low or extremely high
- F - Driving in high-humidity areas or in mountainous areas
- G - Driving in areas using salt or other corrosive materials
- H - Driving on rough and/or muddy roads ,or in the desert
- I - Driving with frequent use of braking or in mountainous areas
- J - Frequent off-road use or driving in water
- K - For models without Euro-OBD system
- L - Sustained high-speed driving

Maintenance Operation : Inspect = Inspect and correct or replace as necessary
