

# **EARLY DAYS**

Globally Nissan has a longstanding heritage in the commercial vehicle market that dates back to 1932. The Nissan brand presence in the LCV market has been built over the last seven decades and today Nissan boasts the most comprehensive commercial vehicle line-up in South Africa.

The previous Nissan half-ton Bakkie is a living legend. Highly versatile and functional, it proved to be the most hardworking and affordable half-tonner on the market. The Nissan NP200 range picks up where its predecessor left off, and brings a youthful energy to the line-up.

# **EYE CANDY**

The Nissan NP200 range gives more than only practicality and under-the-skin durability. The sleek exterior styling projects a no nonsense attitude. The extremely spacious interior cabin provides passenger car-like comfort and lots of space for your belongings. The ergonomically designed driving position keeps you in control, while power steering and a coil spring suspension ensures an unbelievably smooth driving experience.

NISSAN

NP200

65.

# **MY SPACE**

The Nissan NP200's class-leading payload (800kg), load box volume (1.26m<sup>3</sup>) and load box length (1.81m) together with its fuel-efficient engines put this extraordinary bakkie way ahead of the pack.

# **ALL-ROUNDER**

As with the rest of the Nissan commercial vehicle range, the Nissan NP200 offers the highest levels of reliability, versatility and durability, in conjunction with the lowest possible levels of overall running and repair costs. Available in powerful and fuel efficient 1.6l petrol and 1.5l dCi engines.

NISSAN NP200

# 24 SEVEN

# **SAFELY GROUNDED**

Crumple zones are engineered around impact resistance while the engine compartment is designed to stack up in frontal impact collisions. The restraint system includes 3-point seat belts; impact absorbent material underfoot in the dashboard and the doors provide hip and limb protection. The Anti-lock Braking System (ABS) and Electronic Brake force Distribution (EBD) prevents the wheels from locking. The Nissan NP200 comes standard with both a 6 year/150 000km warranty plan and Nissan's DataDoT Anti-theft technology.

# **SMART LOAD**

The versatile Nissan NP200 bakkie range will take your business and leisure life to new heights with its never-say-die attitude, offering: air-conditioning, ABS, EBD and dual airbags, class leading warranty, modern styling, powerful and fuel efficient 1.6l petrol and 1.5l dCi engines, sporty interior, and a rubberised loadbox. Whatever your needs; if you are looking for a smart investment and versatile bakkie, the Nissan NP200 will get the job done.

Disclaimer: Some features listed above are not available on some entry level models.

NISSAN NP200

The NP200 boasts the biggest interior cabin space in its class with an additional storage area (300I) behind the seats. Extensive storage capacity includes glove box, door bins and drink holders under the central console.

High quality aesthetics offer you the luxury and styling of passenger vehicles without compromising on the practicality and versatility that is consistent with a bakkie.

High quality trim, impressive levels of equipment and instrumentation combine comfort with safety and performance.

\* Driver-friendly technology includes an air conditioner, power steering, audio system and central locking.

\* Not standard across all models.

# **OPTIONAL ADD ONS**

The range of Nissan NP200 accessories allow you to customise your bakkie to suit your individual needs, with the peace of mind and quality assurance that comes standard with Nissan Approved Accessories.

Speak to your Nissan dealer for more information on the full range. Some accessories are not compatible with all model grades.

Optional equipment can result in an increase/decrease in the unladen weight and consequently affect the payload. Quoted payloads have been detremined to allow for factory or aftermarket solutions that are not accommodated in the standard delivery and service scope. The calculation of the actual payload of a vehicle is the difference between the gross vehicle mass and the curb mass and can only be determined by weighing the vehicle. Due to production/tyre sizes/type of running gear, the actual dimensions can differ slightly from the figures supplied in this brochure.

# Ð NISSAN

Nissan's commitment to the environment

Nissan's environmental philosophy embraces people, vehicles and nature. In the pursuit of a sustainable mobile society, the Nissan Green Program aims to reduce the environmental impact of Nissan vehicles at every stage of the vehicle life cycle, while corporate activities address environmental challenges.

Nissan's commitment to quality: provide all customers with a consistently high level of quality. Nissan applies the standard worldwide, to ensure that all Nissan owners enjoy peace of mind for the lives of their vehicles. The approach is based on quality from the customer's perspective on three key elements: 1. The expectation of a smooth driving experience with complete peace of mind. 2. The intangible appeal of a vehicle, its power to captivate and excite, with features that capture attention and imagination. 3. The level of attentiveness and service during the sales process, and long after the sale is concluded.

## LEGAL NOTICE

Every effort has been made to ensure that the content of this brochure is correct at the time of going to print (November 2019). This brochure has been produced featuring prototype or accessorised vehicles exhibited at motor shows and, in accordance with the company's policy of continuously improving its products, Nissan South Africa reserves the right to change the specification and the vehicles described and shown in this brochure at any time. Nissan Dealers will be informed of any such modifications as quickly as possible. Please check with your local Nissan Dealer to receive the most up-to-date information. Due to the limitations of the printing processes used, the colours shown in this brochure may differ slightly from the actual colours of the paint and interior trim materials used. All rights reserved. Reproduction in whole or part of this brochure without the written permission from Nissan is forbidden. Quoted fuel consumption and emission values have been established using the prescribed method of measurement (United Nations Economic Commission for Europe "ECE" Regulation R101 in the current version) as required under current legislation. This data does not pertain to the specific vehicle and does not comprise part of the offer, but is supplied for the purpose of comparison between the various types of vehicles, in accordance with 1999/94/EC. Driving behaviour/conditions and other non-technical factors contribute towards a vehicle's fuel consumption and CO<sub>2</sub> emissions over and above the determined fuel efficiency of a vehicle.

# NISSAN INTELLIGENT MOBILITY

Intelligent Mobility guides everything we do. We're using new technologies to transform cars from mere driving machines into partners. Together the journey is more confident, connected, and exciting. Whether it's cars that share the task of driving with you, or highways that change your EV as you go along. It's all in the very near future. And it's a future already taking shape in the Nissan you drive today.
